

RAW MATERIAL

Our fabrics are made from various raw materials, such as Polypropylene (PP), Polyethylene (PE) and engineered materials, such as High-Modulus Polyethylene (HMPE), and Aramid.

YARN TYPES

monofilament

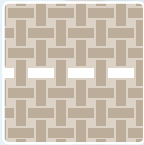

tape

fibrillated tape

multifilament

twined yarn

FABRIC TYPES

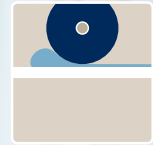

Woven

Nonwoven

Knitted

Coated

MATERIAL PROPERTIES

Chemical resistant

Flexible

UV resistant

Abrasion resistant

Moisture regulating

Strong

Lightweight

Anti-microbial

Colourfast

Breathable

Flame retardant

Rigid

Durable

Elasticity
