SWIMMING POOL COVERS

Safe, durable and effective

Just like anything else, swimming pools come in all different types, designs, sizes, shapes and are used for various purposes. There are indoor pools, outdoor pools, private pools and public pools. In many cases TenCate has the solution to cover your pool for safety reasons, to keep the pool clean from leaves and dirt or to save energy by one of the following products:

- › Mesh pool cover
- › Solid mesh pool cover

MESH POOL COVERS

TenCate Industrial Fabrics develops a strong, highly effective fabric for swimming pool covers. Available in widths ranging from 49" to 73" (1.24 to 1.85 m), TenCate Nicolon® pool cover fabrics provide customers with the ease of fabrication and high shade density to reduce algae growth. The durable mesh fabric is available in three colour combinations: green/black, blue/black, and solid black.

NF P 90-308 certified

The difference TenCate Nicolon® pool cover fabrics make:

- | | | | |
|--|---|---|--|
| 
lightweight | 
durable | 
mildew & rot resistant | 
non-absorbent |
| 
high tensile strength | 
UV resistant | 
chemical resistant | |

The lightweight, woven fabric is made of polypropylene to provide maximum strength, durability and dimensional stability. Our unique combination of finishing treatments assures the most consistent and attractive appearance available.

SOLID MESH COVERS

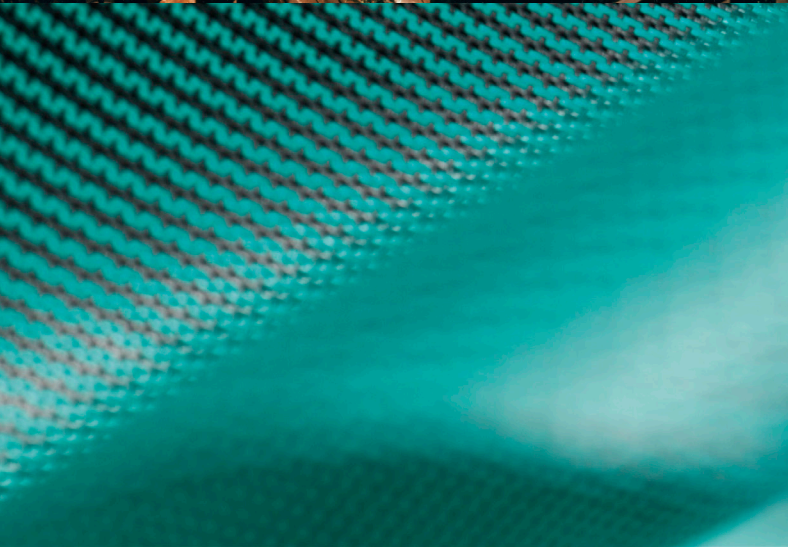

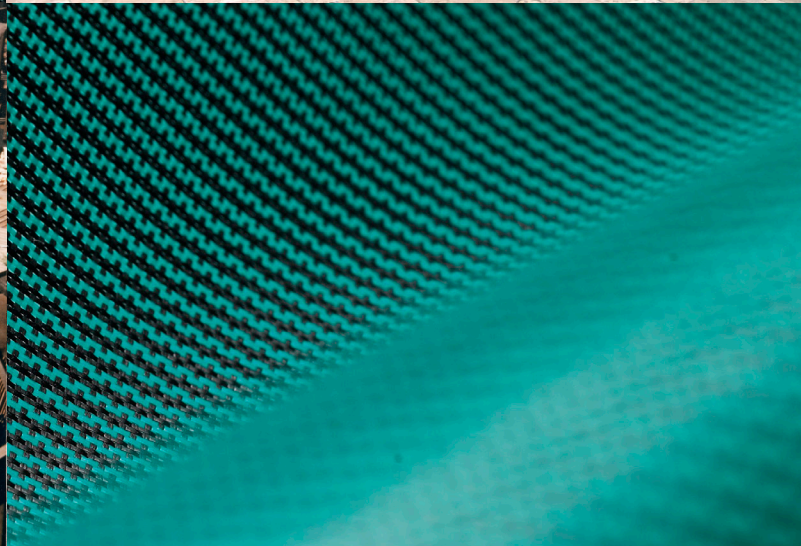

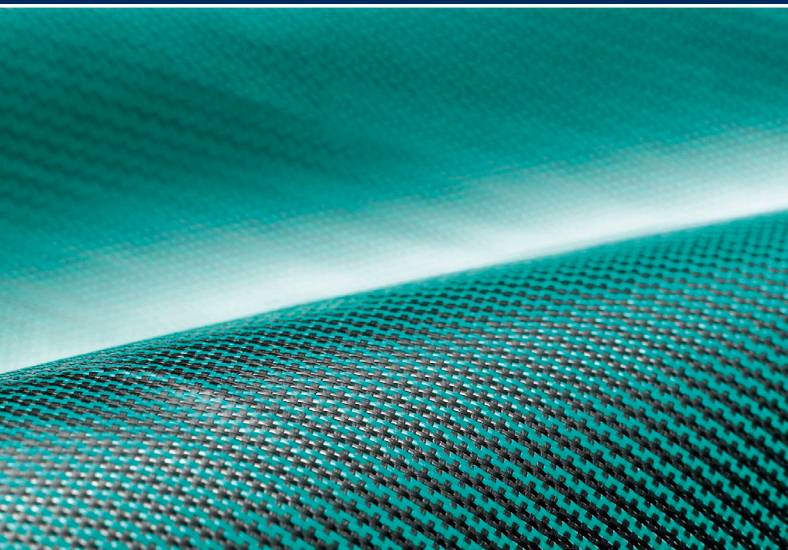

TenCate Nicolon® pool cover fabric is made of lightweight, durable woven polypropylene mesh fabric. It has a high shade density that significantly reduces the growth of algae. Providing maximum strength and dimensional stability, this product is available in many colours, widths, and constructions, and is UV resistant, chemical resistant, and resistant to water absorption. The finishing treatments used on TenCate Nicolon® pool cover fabric guarantees quality, consistency, and an attractive appearance.

The difference TenCate Nicolon® solid mesh pool cover fabrics make:

- | | | | |
|---|---|---|--|
| 
light blocking | 
durable & long lasting | 
high drainage capacity | 
non-absorbent |
| 
chemical resistant | | | |
