

TENCATE NICOLON[®] FLEX800

Floating Covers for Manure Silos.

Ten Cate offers a sustainable, cost effective and worry free manure cover system. With this floating cover on your manure silo you can meet the Industry Emission Targets in an odor free environment.

FLOATING COVER FOR EASY INSTALLATION.

Pre-assembled parts for floating covers for quick, hassle free installation and made of most suitable materials for manure silos. Once installed it will prevent rainwater to mix with your manure, it will prevent odors venting out of the pits, and most important it will reduce the ammoniac emissions.

- › High mechanical resistance because of the use of a reinforced film
- › High chemical resistance on Film, Eyelets and ratchet
- › No ageing because of weather and UV resistant raw materials
- › Sustainable materials
- › Prefabricated covers
- › Suitable for Concrete, Steel mesh- and Steel silos
- › Floating cover for diameters between 15 to 32 mtr.
- › Many years of experience
